JDT - Janet Delivery Team

Group:

The Janet Delivery Team ("JDT") is the mechanism through which Janet and all regional network operators work

together to manage the overall delivery of the Janet services. The JDT comprises individuals nominated from each

regional network operator, and members of Janet's Operations, Development and RNO Contract Management teams.

The JDT operates through regular meetings of the individuals, in addition to normal day-to-day direct communication

between JDT members and Janet staff.
