UK e-Infrastructure Security & Access Management WG

Group:

At the request of the Research Councils UK e-Infrastructure group, Janet established a working group from 2013-2016 to support those providing and using e-infrastructure services in achieving an approach that both protects services from threats and is usable by practitioners. More detail about the group can be found in the Terms of Reference [1]

The Working Group published the following papers:

- E-infrastructures: Access and Security [2] (summary paper) (Jan 16)
- Federated Authentication for e-Infrastructures [3] (Sep 14)
- Technical Security for e-Infrastructures [4] (Nov 14)
- Authorisation/Group Management for e-Infrastructures [5] (May 15)
- Policies for e-Infrastructures [6] (Jan 16)
- Accounting and e-Infrastructures [7] (Nov 16)

Information about the Working Group's activities, as well as discussion documents, links and recommendations is linked under the following categories. Unless marked otherwise, all items are works-in-progress and we very much welcome your comments and contributions.

Meetings [8]		Presentations [9]
Case Studies [10]	Discussions [11]	Technologies [12]
References [13]		

Andrew Cormack [14] (WG Chair)
