

Product evaluations

The VTAS Service was retired in May 2017. This page will no longer be updated.

The VTAS evaluators carry out unbiased evaluations of ISDN/IP videoconferencing products. You will find various [product evaluations](#) ^[1] in the library.

Note that the list of manufacturers represented here is not exhaustive. The presence of a product indicates only that the product has been evaluated by the VTAS product evaluation team and should not be taken as a recommendation. Similarly, the absence of a popular product should not be seen to reflect negatively on that product.
